

The JMC REVOLVE

- ➔ Brand new machine, unseen anywhere else
- ➔ Fast and effective, giving a more valuable end product
- ➔ Compact, requiring minimum floor space
- ➔ Will handle up to 20 metres of cable per minute

Quickly and efficiently removes the aluminium core from ACSR cable

The JMC Revolve is a brand new innovation, never before seen in the scrap industry. It removes the steel core from ACSR cable, saving you time and money and leaving you with a much more valuable and saleable end product.
