

For all your metal recycling needs

JMC Recycling Systems

JMC Service Plans

Why Buy a JMC Service plan?

JMC, McIntyre recycling equipment is built to last but, like any piece of machinery they need to be maintained in order to get the best from them.

We have three service plans available which can be taken out on new machines or machines you have owned for years. Though parts are charged additionally on all options the cost of parts is covered during the warranty period (12 months from purchase on new and 3 months on reconditioned models unless otherwise agreed).

Furthermore... If you purchase a JMC Service Plan with a new machine we will give you 5% off the price of the machine!

What if I arrange my Own Service?

If the machine is still under warranty?

We employ engineers trained to the highest standard with unchallengeable knowledge of JMC, McIntyre machinery. If services or repairs are undertaken by an engineer not in the employ of JMC Recycling Systems Ltd not only are you at risk of damaging your machine but the warranty sold with your machine will be invalid.

If I am buying a plan for an older machine or after the warranty period has expired?

Engineers employed by JMC Recycling Systems are the only engineers that you can guarantee are fully trained in the workings of JMC, McIntyre equipment and therefore give that extra piece of mind - guaranteed!

If services or repairs are undertaken by an engineer not in the employ of JMC Recycling Systems Ltd your service package will be invalidated and the offers and discount within the package will be withdrawn and you are at risk of having a machine that does not meet ever changing health and safety regulations.

Bronze

One yearly service plus 5% off all parts required during the service!

Silver

Two services (recommended at 6 months and 12 months) and 10% off all parts used during the service!

Gold

Two services (recommended at 6 months and 12 months), breakdown cover (one call out) and 20% off all parts required during service and breakdown!
